A Matter of Trust – DVD

Earning for Education

Touch the Future

Everyone watched the DVD A Matter of Trust. Detra has seen the other two and commented that Touch the Future was very informative and worth watching, she felt like Earning for Education was more like an advertisement and not as beneficial as the others

My School's Cool

We discussed ways to promote the program. We want to ask both Riverdale and Washington Terrace to add a paragraph to their monthly newsletter. Patty will get with school secretary Jayne to get the exact information. Detra will communicate with Riverdale city council and Shara will communicate with W.T.

Budget

The budget was discussed.

Application for funds;

English Dept. Novels - \$1000 was approved for book club purchases – which may or may not include actual paper products – it may include digital products, i.e Kindles or ebooks

Math Lab - \$4000 was approved to help pay for the “math lab” – our thin client computer lab. The school is responsible for 3 annual payments of \$4000. We anticipate setting this much money aside each year for the next three years.

Meeting adjourned at 7:30
